DEVELOPMENT CONTROL RULES FOR GREATER BOMBAY

The Development Control Rules with certain modifications were sanctioned by the State Government and published in the Extraordinary Government Gazette on 7th January 1967. These Rules have come into force with effect from 9th February 1967 for the purpose of all parts of the Development Plan of Greater Bombay (as amended up-to-date).

Part I

PERMISSIONS AND FEES

(1) *Written permission for Development Work* :— No person shall carry out any development work as defined in Section 12 of the Bombay Town Planning Act, 1954, within the meaning as extended by Section 14 of the Act, without the written permission of the Commissioner.

(2) *Manner of obtaining Permission*.—(a) For the purpose of obtaining permission, the applicant shall submit the following plans in duplicate :—

(i) A block plan of such building site which shall be drawn to the scale of the largest revenue survey map at the time in existence for the locality and shall show the position and appurtenances of the properties, if any, immediately adjoining streets, if any and the means of access to the building ;

(ii) A ground plan on 8 ft. scale showing the appurtenant open spaces with projections in dotted lines, distances from any buildings existing on the plot in figured dimensions ;

(iii) The detail floor plans for each floor on 8 ft. scale with projections if any, showing the use of every room or portion of the buildings ;

(iv) A plan on 16 ft. scale indicating the parking and loading, unloading spaces ;

(v) At least one section through the building, showing the height of the eaves above the centre of street and the surrounding ground level, and of each floor and of the roof over the staircase and lift ways ;

(b) He shall also submit the form prescribed by the Corporation in this behalf duly filled in, giving particulars of the development work and such other information required therein along with two copies of the plans mentioned above; and if the development work falls within the purview of either Section 337 or 342 of the Bombay Municipal Corporation Act, a notice under that section shall accompany the form and the plans.

(c) If the development work is on an Ex-Trust Estate two more copies of the plans shall be submitted.

(d) If the development work relates to an industrial or factory building it shall be accompanied by a "No Objection Certificate" of the Industries Department of Government of Maharashtra.

(e) If the plans and the information given under rule 2(a) and 2(b) do not give all the particulars necessary to deal satisfactorily with the case, the Commissioner may, within 30 days from the date of receipt of the plans and other particulars, require the production of such further particulars and details as he deems necessary.

(f) The written permission shall be issued by the Commissioner or any officer designated by him in this behalf.

(g) No written permission shall be issued for the construction of any structure or building or any part thereof unless such construction is set back as required under these rules from the lines of the street whether in existence, prescribed under the Bombay Municipal Corporation Act or indicated on the Development Plan.

(h) If the Commissioner does not communicate his decision to the applicant within sixty days from the date of receipt of

application for permission or of the date of receipt of further particulars and details called for under sub-rule 2 (e) above as the case may be, the applicant may, at any time, within one year from the respective date proceed with the development work in accordance with his intention as described in the application or in any documents aforesaid, but not so as to contravene any of the provisions of the Bombay Town Planning Act, 1954 or of any of these rules.

3. *Development work to be in conformity with these Rules*.—(a)

(i) All Development work shall conform to the respective provisions made under these Rules. If there is a conflict between the requirement of these rules and the requirements of bye-laws in force the requirements of these rules shall prevail.

Provided however that in respect of areas included in a finally sanctioned Town Planning Scheme, the scheme regulations shall prevail if there is a conflict between the requirements of these Rules and of the Scheme regulations.

(ii) The Development work when completed shall not be used for any purpose except for the sanctioned use or such use as can be permitted under these rules.

(b) *Change of use*.—No building or premises shall be changed or converted to a use not in conformity with the provisions of these rules.

4. *Use as specifically designated on Development Plan*.—(a) Where the use of a site is specifically designated on the Development Plan, it shall be used only for the purpose so designated.

(i) Where a site is designated for one special public purpose on the Development Plan, the Commissioner with the approval of the Corporation may use the structure existing or to be built thereon or permit the use of the structure in combination with other purposes provided the same is in conformity with these rules and the zone in which the site falls ;

(ii) In the case of specific designation in the Development Plan for schools and their Play-grounds or markets and service industries the Commissioner may inter-change their uses provided the designations are on adjoining or nearby building or premises ;

(iii) Where the use of premises is especially designated for open markets, the Commissioner may, with the approval of the Corporation, in particular cases, permit development work on upper floors which shall be in conformity with the zone in which the premises falls and these Rules.

(iv) Construction of multistoreyed garages only may be permitted on parking lots.

(b) *Use to be in conformity with Zone*.—Where the use of buildings or premises is not specifically designated on the Development Plan it shall be in conformity with the Zone in which they fall.

Provided that and subject to the provisions of the Bombay Town Planning Act and the Bombay Municipal Corporation Act, any lawful use of premises, existing prior to the date of the publication of the intention to prepare the Development Plan, i.e., 18th September 1958, shall continue;

Provided further that a non-conforming use shall not be extended or enlarged except as provided in rule 43.43A and 43.43 that when a building containing nonconforming use is pulled down or has fallen down the user of the new building shall be in conformity with these rules.

(c) *Widths of Roads in the Development Plan*.—Notwithstanding anything contained in the Development Plan or in these rules the Commissioner may for time to time prescribe under Section 297 of the Bombay Municipal Corporation Act regular lines of streets of widths different from those shown in the Development Plan.

"The Municipal Commissioner shall permit additional floor-space-index on 100% of the area required for road-widening or for constructing new roads proposed under the Development Plan, or those proposed under any provision of the Bombay Municipal Corporation Act; if the owner (including a lessee) of such land is prepared to release such area for road widening or for constructing new roads without claiming any compensation thereof. Such 100% of the area going under such road-widening or road construction shall be limited to 40% of the area of the plot remaining after release of the land required for such road widening or road construction.

This concession would also be available in Industrial Zones."

11. Open space provisions in Residential Zones: (i) Front Open Space.—(a) There shall be a minimum open spaces of 10 feet in width between the Street and the building in the Residential Zones of the City.

Notwithstanding a front open-space of not less than 15 feet shall be provided along the following roads in the City:—

Pedder Road, Bhulabhai Desai Road, Carmichael Road, Altamont Road, Gamadia Road, Walkeshwar Road, Ridge Road, Nepean Sea Road, Hughes Road, Chowjaty Sea Face Road, Hornby Vellard, Dr. Annie Besant Road, Maulana Abdul Kalam Azad Road, Cadell Road, Dr. Ambedkar Road from Byculla Bridge to Sion Causeway, Rafi Ahmed Kidwai Road.

With the approval of the Corporation the Commissioner may from time to time add to, alter or amend the above list of Roads.

(b) There shall be minimum open spaces of 15 feet in width between the street and the building in the residential zones of the suburbs and the extended suburbs:

Provided that for Plots less than 500 square yards in Gaothan in the suburbs and extended suburbs this open space may be reduced to 5 feet in width.

(c) When a building is away from a street, the front open space shall be of the width in accordance with sub-clause (b) of clause (i) of Rule 11 subject to a minimum of 15 feet.

(ii) Distance from Centre Lines of Streets:—No construction work of a building shall be undertaken within—

(a) 17 feet from the centre line of through streets in Gaothan in the suburbs and extended suburbs;

(b) 25 feet from the centre lines of Minor streets in the City;

(c) 30 feet from the centre lines of minor streets in the suburbs and extended suburbs;

(d) 35 feet from the centre lines of other streets in the City suburbs and extended suburbs.

The centre line of streets, shall be as determined by the Commissioner.

For the purpose of this rule, "Minor Street" is that which is not more than 1/2 mile in length or is not connected at both ends to public streets which is at least 40 feet in width.

(iii) Setback from certain Roads: No construction work of a building shall be undertaken:—

(a) Within 25 feet from the edge of the Eastern and Western Express Highways and other roads 175 feet or more in prescribed width.

(b) within 20 feet from roads 70 feet or more in prescribed width in the suburbs and extended suburbs, Buildings or Plots abutting the Express Highways and other roads 175 feet or more in width shall present a neat and seemly elevation on the Express Way side even though such plot derive no direct access from these roads.

(i) Two sides open spaces and rear open space for the light and ventilation of rooms including kitchens, store rooms and staircase:—

(a) The open spaces for the above purposes would be deemed to be sufficient if their widths are not less than 1% of each dimension of the site of the building and the percentage of building area does not exceed 25 per cent of the area of the site, when the least dimension of the site is not less than that specified in the table below for different floor space indices:

Floor Space Index	Least Dimension of site
	Feet
1.00	60
1.33	80
1.66	90
2.45	120
3.50	140

(b) The open spaces for the above purposes shall alternatively be as follows:—

For heights of buildings upto 30 feet the minimum width of open space shall be 12 feet or 10 per cent of the longest dimension of the building whichever is higher.

For heights of buildings above 30 feet upto 50 feet in addition to the minimum open space required for heights of 30 feet there shall be a minimum open space at the rate of 1 foot for every 3 feet or fraction thereof for heights above 30 feet.

For heights of buildings above 80 feet upto 100 feet there shall be a minimum open space of 30 feet.

For heights of buildings above 100 feet, in addition to the minimum open space required for heights of 100 feet, there shall be minimum open space at the rate of 1 foot for every 5 feet or fraction thereof for heights above 100 feet subject to a maximum of 50 feet.

N. B. If the length or depth of the building exceeds 120 feet add to column II (10 per cent. of length or depth of building minus 12 feet.

(e) A room shall be considered as adequately lighted and ventilated if its depth from the side abutting the required open space for light and ventilation does not exceed 25 feet.

(v) Height above average ground level for Open Spaces.—For the purpose of rules (11) (12), 22(i) and 23, the height of the building shall be measured above the average level of the site determined by the Commissioner.

(vi) Open spaces separate for each Building or Wing.—The open spaces required under these rules shall be separate or distinct for each building and where a building has two or more wings, each wing shall have separate or distinct open spaces according to these rules for the purpose of light and ventilation of the wings.

Provided that the open space between two wings may be allowed to be reduced to the open space required according to the height of the higher wing on condition that the other wing does not rely on common space for light and ventilation and that the length of the same is restricted to the width of common open space.

12. Narrow Plots.—For the purpose of this rule, narrow plots are those that are less than 50 ft. in width or depth.

(i) The sub-rules (i), (ii) and (iii) of rule 11 shall apply.

(ii) No dimension of a building shall exceed 100 ft.

(iii) (a) Where the depth is less than 50 ft. but not less than 38 ft. the rear open space shall not be less than 10 ft. provided that the building does not take its light and ventilation from this side.

(b) Where the width of the plot is less than 50 ft. but not less than 38 ft. the side open spaces may be allowed to be reduced to 10 ft. on condition that the building does not derive its light and ventilation from side open spaces.

Store-rooms and staircases shall be deemed to be adequately lighted and ventilated from a minimum open space of 10 ft.

(r) Where either the depth or width is less than 38 ft.

(a) For plots less than 38 ft. in depth notwithstanding the provisions of Rule 11 (i) the front setback may be reduced to 10 ft. in the suburbs and extended suburbs and the rear open spaces upto 6 ft. provided that the depth of the building does not exceed 18 ft. and the height shall not exceed 3 storeys or 32 ft.

(b) For plots less than 38 ft. in width there shall be a minimum side open space of 10 ft. on one side; open space on the other side may be reduced upto 6 ft. so as to leave a maximum building 18 ft. in width; the height shall be restricted to 3 storeys or 32 ft.

Semi-detached structures on two adjoining plots may be permitted provided that minimum open spaces as required under the rules is maintained in each plot and the height is restricted to 3 storeys or 32 ft.

(v) In areas where the majority of plots are less than 38 ft. in width or depth, the Commissioner may prescribe building lines within which row houses would be permissible.

(vi) In plots where the depth or width is less than 30 ft. notwithstanding provision of Rule 11(i) a ground floor structure with 5 ft. open space around may be permitted.

Part III

COMMERCIAL ZONES

13. Use provisions in Commercial Zones. In Commercial Zones buildings or premises shall be used only for the following purposes, provided that all goods offered for sale shall be displayed within the building and subject to the conditions that :

(a) When the commercial zone boundary falls short of a street the frontage along such street shall not be permitted to be developed for uses which would not be permitted along such streets;

(b) When use other than these permissible, in a residential zone (without a shop line) have an access from the side or rear open spaces, the width of such open spaces shall not be less than 22 ft.—

(i) Use provisions: Any use permitted in residential zones with shop lines;

(ii) Business Offices and Exchanges;

(iii) Wholesale Establishments;

(iv) Bakeries, confectioneries and establishments for the preparation and sale of eatables not occupying for producing an area in excess of 2,000 sq. ft. per establishment and not employing more than 25 persons;

(v) Auto supply stores and show-rooms for motor vehicles and machinery;

(xiii) Retailing of building materials (lumber heating and roofing etc.) open or enclosed with not more than 5,000 sq. ft. of area per establishment;

(xiv) Pasturing and milk processing plant not employing more than 9 persons and 25 H. P. motive power in this industrial activities;

* (xv) Printing book-binding, engraving and block making with an area and motive power not exceeding 5,000 sq. ft. and 25 H. P. respectively per establishment;

Provided that the Commissioner may, however permit the above activities on an unrestricted scale if the same are in an independent building on such conditions as he may prescribe in the interest of the adjoining development;

(xvi) Veterinary dispensaries and hospitals and kennels;

(xvii) Prisons and animals pounds;

* (xviii) Repairs, cleaning, painting or light manufacturing shops and analytical, experimental or testing laboratories not employing more than 15 persons in the industrial activity, but not including cleaning and dyeing establishment using a cleaning or dyeing fluid having a flash point lower than 138 degrees Fahrenheit and machines with a dry load capacity exceeding 60 lbs. for any establishment, carrying on activities that are noxious or offensive because of emission of odour dust, smoke gas, noise or vibration or otherwise dangerous to the public health and safety;

(xix) Accessory buildings or uses customarily incidental to any permitted principal use, including storage space upto 50 per cent of the total floor area used for the principal use;

* (xx) Flashing or non-flashing business signs, placed fast against the wall, not exceeding 50 sq. ft. in area and covering not more than 15 per cent of the area of such wall including doors and windows, and overhanging signs which project not more than 3 ft. from the wall, provided that such overhanging signs shall be in conformity with the following:—

(a) Not more than one overhanging sign may be permitted for each 15 ft. of plot frontage; and

(b) The area of such overhanging signs shall not be more than 10 sq. ft. except that for each three feet of plot frontage above the first fifteen an increase in area of 2 sq. ft. shall be permitted.

(xxi) Paper Box manufacturing including paper cutting, not employing more than 9 persons, with motive power not exceeding 5 H. P.

(xxii) Mattress making and cotton cleaning, not employing more than 6 persons, with motive power not exceeding 3 H. P.;

(xxiii) Establishments requiring power for sealing tins; packages etc., not employing more than 9 persons, with motive power not exceeding 3 H. P.

* With the approval of Corporation, the Commissioner may from time to time add to alter or amend the above list.

+ Note:—

14. *Height provisions in Commercial Zones.*—The height provisions in commercial zones shall be same as in Rule 9 for residential zones.

15. *Floor space indices in Commercial Zones.*—The permissible floor space indices for the various Commercial Zones shall be the same as for the Residential Zones in the particular F.S.I. zone according to Table LXVI at Rule 10 above.

16. *Open spaces provisions in Commercial Zones.*—The open space provisions in Commercial Zones shall be the same as in Rule 11 for Residential Zones.

17. *Narrow Plots.*—The provisions for narrow plots in Commercial Zones shall be the same as in Rule 12 for Residential Zones.

Part IV

GENERAL INDUSTRIAL (I1) AND SPECIAL INDUSTRIAL (I2), ZONES

o 18. *Use provision in General Industrial Zone: (II).*—Subject to the provision of Rule 26, in general industrial zones building or premises may be used for any purpose except the followings:

(i) Any dwelling other than dwelling quarters of watchmen, caretaker, or other essential staff required to be maintained on the premises as may be allowed by the Commissioner;

(ii) Acetone manufacture;

(iii) Acetylene gas manufacture, or storage in cylinders of total capacity in excess of 100 C. ft.;

(iv) Acid manufacture;

(v) Air-crafts (including parts) manufacture;

(vi) Alcohol manufacture;

(vii) Ammonia manufacture;

(viii) Aniline Dyes manufacture;

(ix) Asphalt;

(x) Asphalt manufacture or refining;

(xi) Automobiles, trucks and trailers (including parts) manufacture and engine-rebuilding, except motor body building not employing pneumatic retvetting;

(xii) Blast furnace;

(xiii) Bleaching powder manufacture;

§ lxxxix

With the approval of the Corporation, the Commissioner may from time to time add to, alter or amend the above list

19. *Use provision in Special Industrial zones.*—In special Industrial Zones, buildings or premises may be used for industrial and warehousing purposes only except that dwelling quarters for watchmen or caretakers or other essential staff required to be maintained on the premises and canteen and other amenities or labour, if any, may be permitted to be constructed. Special

written permission of the Commissioner shall be required for the following uses provided that the Commissioner may prescribe minimum size of Plot, the open spaces to be maintained around and such other conditions with a view to minimize the nuisance likely to be created to the surrounding area.

(i) Fertilizer manufacture from organic materials provided however, that these provisions shall not apply to the manufacture of fertilisers from previously processed materials which have no noxious odours or fumes and which do not produce noxious odour or fumes in the compounding or manufacture thereof;

(ii) Sulphurous, sulphuric, citric, nitric, hydrochloric or other corrosive acid manufacture or their use or storage except as accessory to a permitted industry;

(iii) Blast furnace;

(iv) Ammonia manufacture;

(v) Incineration, reduction or dumping of offal, dead animals garbage or refuse on commercial basis or the establishment of loading and transfer platforms except where restricted, regulated or controlled by duly constituted government or Municipal Authorities having the power to restrict, regulate or control the same

(vi) Tannin manufacture or Manufacture;

(vii) Lime manufacture;

(viii) Manufacture of explosive or inflammable products of cellulose;

(ix) Celluloid manufacture or treatment;

(x) manufacture of photographic films;

(xi) Cement manufacture;

(xii) Chlorine manufacture;

(xiii) Bleaching powder manufacture;

(xiv) Gelatine or glue manufacture or processes involving recovery from fish or animal offal;

(xv) Aluminium, magnesium, tin, copper, zinc or iron smelting;

(xvi) Manufacture or storage of explosives or fireworks;

(xvii) Match manufacture;

(xviii) Fat rendering;

(xix) Candle or paraffin, wax products manufacturing;

(xx) Fat, tallow, grease or lard refining or manufacturing;

(xxi) Manufacture of explosive or inflammable product of pyroxylin;

(xxii) Pyroxylin manufacture;

(xxiii) Dyestuff manufacture;

(xxiv) Turpentine, varnish or size manufacture or refining;

(xxv) Gypsum plaster or plaster of paris manufacture.

(xxvi) 'Drive-in-Theaters' Cinema or Theaters, subject to the provision of separate entries and exits for the cars, required sanitary and water supply, arrangement, car parking arrangements as per rules in force.

† (xxvii) :-

With the approval of the Corporation, the Commissioner may from time to time add to, alter or amend the above list.

20. Height provision in General and Special Industrial Zones.—The height provisions in General and Special Industrial Zones shall be the same as those in Rule 9 for residential zones.

21. Floor space indices for General and Special Industrial Zones.—The permissible floor space indices for the Industrial Zones shall not exceed the indices given in table below :-

TABLE XIX

Floor Space Indices in Industrial Zones

Industrial Zone.	Description of the locality where in the Zone situated	Index.
General Industrial Zone	I-1 City	2.0
	Suburbs & Extended Suburbs.	1.0
Special Industrial Zone	I-2 City	2.0
	Suburbs & Extended Suburbs.	1.0

“ Provided that in case of buildings with Commercial users or mixed users (having commercial and factory users) in General Industrial Zone (I-1) in the City area, the floor space index shall be permitted as specified in rule 10 for commercial users.”

22. Open space provisions in General and Special Industrial Zones.— (i) (a) For heights of buildings 4 storeys or 52 ft. and less the minimum open spaces around each building shall not be less than 15 ft. in the City and 20 ft. in the Suburbs and extended Suburbs. The open spaces between the two wings shall be as per the Rule 11 (c).

(b) For heights of buildings more than 4 storeys or 52 ft. the open spaces in clause (a) shall be increased by at least one foot for every 4 ft. height or fraction thereof above 4 storeys or 52 ft. provided that when the building abuts a street, the open space along that street need not be so increased.

(ii) Distance from Centre Lines of Streets.—No construction of a building shall be undertaken within—

(a) 35 ft. from the centre line of a street in the City.

(b) 40 ft. from the centre line of a street in the Suburbs and Extended Suburbs.

(iii) Setback from certain roads.—No construction of a building shall be undertaken within 75 ft. from the edge of Eastern and Western Express highways and other roads 175 ft. or more in prescribed width.

(iv) The open space for the light and ventilation of rooms, except store-rooms and staircases in each building or each wing of a building shall be as per clause (a) or (b) of sub-rule (i) above as the case may be and the open spaces for the light and ventilation of store-rooms and staircases in each building or each wing of a building shall be as per clause (a) of sub-rule (i) above whatever be the height of the building.

23. Narrow Plots in General and Special Industrial Zones.— (i) Narrow Plots less than 50 ft. in width in the City—

(a) If the width of the Plot is less than 50 ft. but is 35 ft. or more, then the side open space on one side may be correspondingly reduced but not so as to have a building more than 20 ft. in width and two storeys or 27 ft. in height.

(b) If the width of the Plot is less than 35 ft. but not less than 30 ft. then there shall be one side open space of not less than 10 ft. but not so as to have a building more than 20 ft. in width and two storeys or 27 ft. in height.

(c) If the Plot is less than 30 ft. in width then one storey building not more than 15 ft. in height with dead-walls on both sides may be permitted.

(ii) Narrow Plots less than 50 ft. in depth in the City—

If the depth of the Plot is less than 50 ft. then the rear open space may be correspondingly reduced but not so as to have a building more than 20 ft. in depth and two storeys or 20 ft. in height and if the rear open space is reduced to less than 10 ft. then the height of the building shall be restricted to one storey or 15 ft. only.

(iii) Narrow Plots less than 60 ft. in width in the Suburbs :—

(a) If the width of Plot is less than 60 ft. but 40 ft. or more, than the side open space on one side may be correspondingly reduced but not so as to have a building more than 20 ft. in width and 2 storeys or 27 ft. in height.

(b) If the width of the Plot is less than 40 ft. but not less than 35 ft. then there shall be a side open space on one side of not less than 15 ft. and the building shall not be more than 20 ft. in width and two storeys or 27 ft. in height.

(c) If the width of the Plot is less than 35 ft., then one storey building not more than 15 ft. in height with dead walls on both sides may be permitted.

(iv) Narrow Plots less than 60 ft. in depth in Suburbs and Extended Suburbs—

If the depth of the Plot is less than 60 ft. then the rear open space may be correspondingly reduced so as to permit a building of 20 ft. depth and two storeys or 27 ft. in height, but if the rear open space is reduced to less than 10 ft. then the height of the building shall be restricted to one storey or 15 ft. only.

(v) In the case of narrow Plots the reduced open space shall not be less than 6 ft., and when the reduced open space is less than 10 ft. then the wall abutting such open space shall be at least 18" thick and shall have no openings therein.

24. *Setback in General and Special Industrial Zone*—(a) In Industrial Zones of Suburbs and Extended Suburbs and new Reclamation Areas at Wadiala Salt Pans, actual factory or workshop buildings and storage or godown shall not be constructed within a distance of 75 ft. in General Industrial Zones and 175 ft. in Special Industrial Zones from the boundary of such Zone where it separates and Industrial Zone from any other user except large open spaces, provided that such distance shall be measured from the opposite edge of the road where the zone abuts on an existing or proposed road. Provided further, that other ancillary building such as office premises, essential staff quarters, canteen, garages, electric sub-stations, water tank, etc. may be permitted in such open spaces but subject to all other rules applicable. Provided further that such minimum distances shall be 35 ft. and 75 ft. if the zone boundary is co-terminus with the boundary of an open space or a playground.

(b) If some plots in Industrial Zones become unbuildable for factory purposes because of above restrictions, the following users may be permitted on such Plots.

(i) Petrol Pumps and Service Station.

(ii) Parking lots.

(iii) Electric Sub-Station.

(iv) Building of public utility concerns except residence.

(v) The branches of Scheduled Banks.

25. *Setback from Boundaries of General and Special Industrial Zones*—No Building in General or Special Industrial Zones shall be erected, raised or extended within 30 ft. from the zone boundary provided that when the zonal boundary is along a street 30 ft. or more in width this provision shall not apply.

26. *Special Industries in General Industrial Zones*. User permissible only in Special Industrial Zone (I2), those listed under Rule 19 for which special written permission of the Commissioner is necessary for their location in Special Industrial Zones may be permitted with the approval of the Corporation in General Industrial Zones (II), provided they are located in a building which is at least 175 ft. from the boundaries of the General Industrial Zones and 50 ft. from the boundaries (other than that facing a street) of the premises.

Part V

SERVICE INDUSTRIAL PLOTS

27. *Use provision on Service Industrial Plots*.—The following service industries will be permissible on Plots earmarked for service industries in the Development Plan.

Service Industries :

(i) Flour Mills with motive power not exceeding 10 H. P.

(ii) Bakeries, confectioneries, ice-candy, ice-cream factories with motive power not exceeding 10 H. P. and employing not more than 9 persons;

(iii) Automobile service and repairs stations with motive power not exceeding 15 H. P. provided the necessary parking spaces are available;

(iv) Power laundries with motive power not exceeding 15 H. P. and employing not more than 9 persons;

(v) Pasteurisation of milk cream and butter with motive power not exceeding 10 H. P.

(vi) Supari and masala grinding with motive power not exceeding 10 H. P.

(vii) Photo process works employing not more than 9 (nine) persons;

(viii) Leather products not employing more than 9 persons;

(ix) Soda fountain and aerated waters with motive power not exceeding 10 H. P. and not employing more than 9 persons;

(x) Printing book-binding engraving, and block making with motive power not exceeding 10 H. P.

(xi) Gold smith, lock-smith, Watch and clock repairs, bicycle repairs, musical instruments repairs, picture framing, radio repairs, umbrella repairs upholsters and household appliances repairs, optical glass grinding and repairs with motive power not exceeding 10 H. P. and not employing more than 9 persons;

(xii) Furniture works with motive power not exceeding 5 H. P. circular saw with more than 1/2 H. P. motive power not permissible. Number of workmen not to exceed 9;

(xiii) Umbrella assembly works employing not more than 9 persons;

(xiv) Tools and razor sharpening works employing not more than 9 persons;

(xv) Paper box manufacture including paper cutting and other stationery articles with motive power not exceeding 10 H. P. Number of workmen not to exceed 9;

(xvi) Tailoring and embroidery establishments with motive power not exceeding 10 H. P. Number of workmen not to exceed 9;

Part VII

GENERAL PROVISIONS

32. *Building abutting two or more Streets.*—When a building abuts two or more streets, the setbacks from the street shall be such as if the building was fronting each such street.

33. (a) *Open spaces to be provided for the full Consumption of floor Space Index.*—Normally the open spaces to be left at the sides and the rear shall conform to the height necessary to consume the full F. S. I. permissible in the Zone, provided that smaller open spaces than are required under these rules would be permissible if the height of the building is restricted permanently to any smaller height.

In respect of buildings existing on 1st January 1964, upper floors may be permitted with setbacks at upper levels to make up

for the deficiency in the open spaces as required under the rules provided that the Commissioner may permit smaller setback and to permit additional floor area to the limit of 100 sq. ft. over the permissible F. S. I. to avoid structural difficulties or great hardships but so as not to affect adversely the light and ventilation of adjoining buildings or part thereof.

Not with standing the above, tower-like structures may be permitted only with 20 ft. open spaces at the ground level and one setback at the upper levels provided that the total height does not exceed 80 ft. If it exceeds 80 ft. but does not exceed 125 ft. the minimum open spaces at the ground level shall be 30 ft. Beyond 125 ft. height the minimum open spaces at ground level shall be 40 ft. with two setbacks at upper levels, the terraces created by the setbacks shall not be accessible through individual flats or rooms, the deficiency in open spaces shall be made good at the setbacks at higher level. Structures shall be deemed to be tower-like structures when height of tower-like portion is at least twice that of the broader base.

(b) *Special type of buildings.*—Subject to the requirements of setbacks from roads on side and rear marginal open spaces under the respective Rules, no buildings used for Theatres, Cinema Halls, Concert or Assembly halls, stadia, buildings intended for religious worship, hospital buildings, school buildings or other educational buildings, markets, exhibition halls or museums and such other buildings shall have an open space of less than 15 ft. in the City area and 25 ft. in the areas of Suburbs and Extended Suburbs from any boundary of the plot on which such buildings are constructed.

34. *Inner and Outer Chowks.*—(a) (i) No dimension of an inner chawk on which doors or windows abut shall be less than 10 feet.

(ii) Inner chawks on which doors or windows abut shall have an area at all levels of the chawks, of not less than the square of 1/5 the height of the highest wall abutting the chawk;

Provided that when only water closets and baths abut the chawk then one of its dimensions may be 8 ft. and its area need not exceed 200 sq. ft. for any height :

Provided further that when any room (excluding a stair-case bay) is dependent for its light and ventilation on an inner chawk, the dimension of the chawk shall be such as is required for each wing of the building.

(b) No length (as distinguished from its depth) of an outer chawk shall be less than 8 feet.

35. (a) *Provision of lifts in buildings.*—No building shall be erected or raised to a height greater than 52 ft. above the average surrounding ground level without the provision of a lift in addition to the required staircase :

Provided that in case of existing building with height 52 ft. or above one additional floor may be permitted without insisting on lift in case of chawl-like structures. Same concession would be available for buildings with flat accommodation provided the additional floor space is limited to 1,200 sq. ft. The total height shall not exceed 52 ft. or ground and five upper floors.

(b) *Special requirements for high buildings.*—When a building is erected or raised to a height greater than 70 ft. the following requirements shall be complied with.

(i) At least two lifts shall be available for every dwelling, except those situated on ground and first floor without having to climb or go down more than one floor.

“ Provided that in case of buildings with a ground floor on stilts for parking facilities and having seven upper floors not exceeding 75'-0" in height (measured from ground floor up to the top slab), the provision of a second lift may not be insisted upon.”

(ii) The requirements for the fire prevention and fire fighting shall be carried out.

(iii) Water storage tanks and pumps of approved size shall be provided and maintained in working order.

OO (c) :—

OO (d) :—

36. *Parking, loading and unloading spaces.*—The requirements for parking and loading unloading spaces shall be as follows:—

(a) Parking spaces of 8'x18' shall be provided at the rate of:—
(i) One for every tenement with carpet area upto 500 sq. ft.;

(ii) One and half for every tenement with carpet area exceeding 500 sq. ft. but not exceeding 1,000 sq. ft.

(iii) Two for every tenement with carpet area exceeding 1,000 sq. ft.;

in Malabar hill, Cumballa Hill, Reclamation, Fort and Colaba area and Reclamation areas Backbay, Sassoon Dock and Nepean Sea Road;

(b) In the rest of the City, Suburbs and Extended Suburbs;

(iii) One for every four tenements having a carpet area of 400 sq. ft. or above;

(c) One for every 6 guest rooms in hotel of Class I as may be classified by the Commissioner with the approval of the Improvements Committee;

(ci) One for every 250 sq. ft. of permit rooms, dining rooms and cafeteria hall in such hotels;

(d) One for every 20 beds in a hospital;

(e) One for every 1,000 sq. ft. of office space upto 5,000 sq. ft. and every 2,000 sq. ft. of additional office space or fraction thereof thereafter;

(f) One for every 25 seats or persons in theatres, cinema-houses, concert halls, assembly halls (including those in Colleges, hotels etc.), Stadia and Clubs, plus additional spaces for Public Vehicles provided that provision parking space may be made either wholly in the basement below the building or partly in the basement and partly on the ground within the compound depending upon the size of both the plot and the building.

(g) One for every 1,000 sq. ft. of markets, departmental stores, restaurants shops and other commercial uses, including their storage spaces upto 5,000 sq. ft. and every 2,000 sq. ft. of space or fraction thereof thereafter;

(h) For Industrial buildings.—

(i) Two spaces for an area less than 5,000 sq. ft. and one additional space for every 5,000 sq. ft. or fraction thereof;

(ii) In addition to the parking spaces, loading and unloading spaces each of 12' x 25' shall be provided on the following standard for office, markets, departmental stores, shops and restaurants, hotels, factories and godowns or warehouses; one loading and unloading space for each 2,500 sq. yds. of floor area or fraction thereof exceeding the first 500 sq. yds. subject to a maximum of 6 such spaces;

(iii) Parking lock up garages will be included in the calculations for floor space index, unless they are provided in the basement of a building or under a building constructed on stilts with no external walls. The minimum height for garages in the basement or under a building on stilts shall be 7 feet;

Provided that in residential zones the area of one lock up garage plus one garage for every 400 sq. yds. of the plot area may be permitted in excess of the permissible F. S. I. No such garage shall have a floor area in excess of 9'x20'.

(iv) The parking spaces and loading unloading spaces shall be clearly indicated on a plan on 16' feet to an inch scale showing sufficient manoeuvring space and 10 ft. wide access to each space;

(v) 50 per cent. of the open spaces required under these rules around buildings, except those in front and the recreational or amenity open spaces required under Rule 39 may

be allowed to be utilised for parking or loading un-loading spaces;

Provided that a minimum distance of 12 feet around the building shall be kept free from any parking, loading, unloading spaces;

§.—(vi) On a partially developed lands proposals which will reduce the parking and loading un-loading spaces for the existing development below the minimum required under these rules would be permissible.

§ 37 (a) *Galleries, balconies, Weather frames, etc.*

(i) In case of residential flats either in purely residential zone or in the residential zone with shop-line, the galleries/balconies may be permitted to the extent of 10 per centum of the floor area of each floor except ground floor, in addition to the permissible F. S. I. of the zone subject to following restrictions:—

(a) that the length of the balcony shall be restricted to half the length of the room from which such balcony projects;

(b) that when the balconies are enclosed, 1/3rd of the area of their faces shall have louvers or grills on the top and the rest of the area except parapet shall have glazed shutters;

(c) that at no time dividing wall between the balcony and the room shall be removed;

(d) that the maximum projection of the balcony shall not exceed 4'-0" subject to the restriction vide rule 37 (a) (ii) of Development Control Rules except that when it faces a street a maximum projection of 4'-6" may be allowed, and

(e) that such balconies in excess of permissible F. S. I. shall be permitted only to the residential flats constructed in purely residential zones and in residential Zones with shop lines.

(ii) No gallery, balcony, weather frame sun-breaker; cornice eave or other ornamental projection shall project more than 2'-6" over the open spaces required under these rules, except when they face a street, when their width shall not exceed 4'-6" but not so as to extend on the side open spaces. Provided that where the required open space for a building is 15 ft. or more, the gallery or balcony projection may project over such open space to an extent of four feet.

(iii) No gallery or balcony shall be permissible which will reduce the required open space, except that facing a street, to less than 10 ft.

(iv) No weather frame, sun-breaker cornice, eave or other ornamental projection shall be permissible which will reduce the required open space, except that facing a street to less than 7'-5".

(v) No gallery or balcony projection on required open spaces shall serve as a passage to any part of the building.

(vi) Weather frames over and cornices for the permissible gallery or balcony projections may extend 6 inches more than the width of such gallery or balcony projection.

(vii) A fire balcony or fire escape may project on the required open space to the extent of 4 ft.

(b) *Revas projection.*—(i) Revas projection 4 ft in width may be permitted in front open space when it faces a street 40 ft. or more in width. To facilitate the construction of a staircase such revas projection would be permitted in the side or rear open space provided the such open space is at least 15 ft. and the revas projection is limited to width of 2½ ft. and the length of the staircase landing. No revas projection shall be a at height less than 7 ft above the ground level.

Revas projection shall not be permissible in the side or rear open spaces of a tower like structure.

(ii) The areas of all revas projections shall be taken into account for the computation of floor space index.

(c) *Porches.*—Unenclosed porch open on three sides and 13 ft. in length parallel to the main building and 12 ft. in width may be permissible for parking purposes only, in the required open spaces

except the rear open space provided it is at least 5 ft. from the boundary lines and a parapet wall only 9" in height is provided on its roof. Its area shall not be taken into account for the computation of floor space index.

4-4 (d) *Other, etc.*—Open areas or any encroachment will not be permitted in the required open spaces so as to reduce the clear open space to less than 10 ft. However such open areas shall in no case exceed 4 ft. in width and shall be 6 inches below the plinth level.

38. *Means of access* :—Street from which access can be given : The Commissioner shall permit access from streets having width of not less than 20 ft. (being streets falling in residential and commercial zones only) over which the public have a right of access or passed and repassed uninterruptedly for a period of 20 years ;

Provided that, the Commissioner may permit access from a street with less than 20 ft. width (including streets in a Gaothan which give access to other properties outside the Gaothan) taking into consideration road widening proposals in future either in accordance with the Development Plan or under the provisions of the Bombay Municipal Corporation Act, if the existing width of such street is not less than 12 ft.

Provided further that, the Commissioner may permit temporary access from streets less than 20 ft. in width where permanent access is proposed to be derived from projected roads as proposed in Development plan, if the width of such street is not less than 12 feet."

(a) In Residential and Commercial Zones :—

(i) If the means of access serves all area less than 1,500 sq. yds. or its length from a street is 100 ft. or less then its width shall not be less than 18 ft.

(ii) If the means of access serves an area 15,000 sq. yds. or more but less than 5,000 sq. yds. or its length from a street is 200 ft. or less, then its width shall not be less than 22 ft.

(iii) If the means of access serves an area 5,000 sq. yds. or more, or its length from a street is more than 200 ft. then its width, shall not be less than 30 ft.

(iv) In the interest of the general development of an area the Commissioner in specific cases, may with the approval of the Standing Committee require the means of access to be of larger width than that required under these rules.

(v) In case where a private passage is unrestrictedly used by the public from more than 10 years as a means of access to a number of Plots, the Commissioner, may with the sanction of the Corporation, improve the passage at the municipal cost and thereafter, take steps under the provision of the Bombay Municipal Corporation Act to declare it as a public street.

(vi) Notwithstanding the above in the City and Suburban area in partially built up Plots, if the area still to be built upon does not exceed 5,000 sq. yds. an access of 12 ft. width and even if it is arched over at a height of not less than 14 ft. may be considered as adequate means of access. If such access is at least 10 ft. in width, it shall be considered as adequate means of access for an area to be built upon not exceeding 5,000 sq. yds. provided that such area is used for low-income group housing and that the F. S. I. permissible would be 75 per cent. of the F. S. I. permissible in that zone.

(vii) In the areas of Suburbs and Extended Suburbs, the width of such means of access as required under clause (i), (ii) and (iii) may be permitted to be reduced to 15', 18' and 22' respectively, provided all the buildings which the means of access serves are on one side only and have in no case a height more than 80 ft.

Building shall be setback at least 10 ft. from any such means of access in a layout.

Notwithstanding the above in respect of Narrow Plots in the Suburbs and Extended Suburbs where the area of such Plots does not exceed 1,500 sq. yds. the width of such access may be permitted to be reduced upto 12 ft. and the setback there from upto 5 ft. so as to permit a building at least 22 ft. in width.

(b) In general and special Industrial zones and for service industrial building, theatres, cinema houses, concert or assembly halls, stadia, buildings for religious worship, educational buildings, markets and other buildings attracting large crowds :

(i) If the length of the means of access from a street is 100 ft. or less, it shall not be less than 20 feet.

(ii) If the length of the means of access from a street exceed 100 ft. but does not exceed 300 ft. its width shall not be less than 24 ft.

(iii) If the length of the means of access from a street exceeds 300 ft. but does not exceed 600 ft. its width shall not be less than 33 ft.

(iv) If the length of the means of access from the street exceeds 600 ft. its width shall be as prescribed taking into consideration the general development of the area but in no cases would it be less than 44 ft.

(c) Means of access to be paved and drained and free of encroachment :—

(i) The means of access shall be paved and drained to the satisfaction of the Commissioner and shall not be encroached by any structure or fixture so as to reduce its width below the minimum required under these rules and shall be maintained in a condition satisfactory to the Commissioner ;

(ii) If any structure or fixture is set up on a means of access so as to reduce its width below the minimum required under these rules or the width existing on the date of publication, of the declaration of intention to prepare the Development Plan, viz., 18th September 1958, the Commissioner may remove the same forthwith and recover the expenses so incurred from the owner ;

(d) No direct access from Express Highways and other roads.

No premises shall have an access direct from the Eastern and Western Express Highways and such other roads, not less than 175 ft. in width, which the Commissioner with the approval of the Corporation shall specify from time to time. The Commissioner shall maintain a register of such other roads which shall be open to public inspection at all times during office hours.

39. *Layouts or Sub-Divisions*.—(a) Layouts or sub-division in residential and commercial zones :

(i) When the land under development admeasures 3,000 sq. yds. or more the owner of the land shall submit a proper layout or sub-division of his entire independent holding.

(ii) In any such layout or sub-division 15 per cent. of the entire holding area shall be reserved for a recreational space which shall be as far as practicable in one place.

(iii) No such recreational space shall admeasure less than 450 sq. yds.

(iv) The minimum dimension of such recreational space shall in no case be less than 25 ft. and if the average width of such recreational space is less than 80 ft. the length thereof shall not exceed 2½ times the average width.

(v) No independent Plot in a sub-division shall have an area less than 400 sq. yds. and width less than 50 ft.

(vi) Every such Plot and the recreational space shall have an independent means of access.

(vii) For the purpose of F. S. I., the net area of the plot shall only be considered, in case of layout proposals such net area shall be calculated after deducting from the gross area of plot, the area covered by means of access and recreational space.

In case of plots, the area of which varies from 2550 sq. yds to 2999 sq. yds. the floor space index shall be allowed only over an area of 2550 sq. yds."

(viii) Any such layout or sub-division shall take into account the provisions of the development plan and if the land is effected by any reservation for public purposes the Commissioner may agree to adjust the location of such reservation to suit the development without altering the area of such reservation.

(ix) In all layouts the parking and loading, unloading spaces as required under the Rules shall be clearly shown on the plan.

(x) In the case of layouts or sub-divisions of the areas in excess of 5 acres a separate Plot for Shopping centre shall be provided which may have an area upto 2 per cent, of the area of plot.

(xi) In a layout or sub-division of plot 5 acres or more suitable site for an electric sub-station shall be provided.

(N. B.—Independent holding means continuous piece of land in one ownership).

(b) Layouts or sub-division in General and Special Industrial Zones:—

Sub-Divisions

(i) In sub-divisions in general or special industrial zones, the minimum size of the Plot shall be 1,000 and 3,000 sq. yds. respectively. Width of such Plot shall not be less than 75 ft. provided that in Sub-divisions of small scale industrial estates, the size of the Plot may be reduced to a limit of 600 sq. yds.

(ii) Every Plot shall have a means of access as required under Rule 38(b).

(iii) In the case of sub-division of land 2 acres or more in area, 5 per cent. of the total area shall be reserved as an amenity open space which shall serve as a general parking space, when such amenity open space exceeds 1,500 sq. yds. the excess area could be utilised for the construction of buildings for banks, offices, canteens welfare centres and such other common purposes considered necessary for the industrial user.

Layouts

(i) In the layout of all industrial Plots measuring 1,000 sq. yds. or more in area 10 per cent. of the total area shall be provided as an amenity open space subject to a maximum of 2,500 sq. yds.

(ii) Such an amenity open space shall have a proper means of access and shall be so located that it could be conveniently utilised as such by the persons working in the industry.

(iii) The parking and loading-unloading spaces as required under these rules shall be clearly shown on the plans.

In the case of layout or sub-division of a land, 2 acres or more in area a suitable site for an electric-sub-station shall be provided.

The layout or sub-division proposals shall take into account the provisions of the Development plan and if the land is affected by any reservation for public purposes, the commissioner may agree to adjust its exact location to suit the development.

40. *Accessory buildings.*—(a) Sanitary block one storeyed in height, in the rear and side open space at distance of 25 ft. from any street-line or the front boundary of the Plot, and 5 ft. from the other boundaries may be permitted by the Commissioner:

Provided that the Commissioner may reduce this 5 ft. margin in rare cases to avoid hardship.

(b) Parking lock-up garages 9 feet in height in the side or rear open spaces at a distance of 25 ft. from any street line or the front boundary of the Plot may be permitted by the Commissioner. If the height of the parking garages exceeds 9 ft they shall be at a minimum distance of 5 feet from the rear or side boundary.

Parking lock-up garages when located within the main building shall be 25 ft. away from any street line and shall be of fire proof construction;

(c) The areas of sanitary blocks and parking lock-up garages shall be taken into account for the calculation of floor space index:

Provided that in residential zones the area of one lock-up garage plus one for every 400 sq. yds. of the plot area may be permitted in excess of the permissible F.S.I. No garage shall have a floor area in excess of 9' x 20'.

41. *Height of Compound Walls.*—(a) No compound wall or fence shall exceed 5ft. in height above the kerb or average ground level, except in case of industrial plots, where the Commissioner may permit a height upto 8 feet.

The compound wall or fence may be raised further to a height of 3 ft. with open type construction of design to be approved by the Commissioner.

(b) When a compound wall or fence is located at the Junction of streets, its height shall not exceed 3 ft. 6 inches to a length of 30 ft. on either side of the junction and any further height if required in accordance with clause (a) shall be of open type construction of a design to be approved by the Commissioner.

Notwithstanding the above, 8 ft. compound wall without insulating upon open type construction above 5 ft. may be permitted in Plots used for electric sub-station, transformer stations or such other users of public-utility undertakings.

42. In purely residential areas where the commercial zone boundary or a street with shopping frontage is at least 2 furlongs away, shops like general provision stores or foodgrain shop at the rate of 1 for 40 tenements may be permitted on the ground floor or in a semi-detached ground floor building with no other user over it, provided that the remaining area on the ground floor is utilised for parkings purposes. Such shopping user will not be permissible in more than two adjoining Plots in any locality. Such shop users shall not cover more than 2 percent. Plot area.

43. *Non-conforming Industries.*—Where a non-conforming industry has been granted a written permission under Section 399 of the Bombay Municipal Corporation Act without a condition for its shifting to a conforming zone at the end of a specified period, additions thereto for the manufacture of new articles or for starting new processes may be permitted by the Commissioner with the approval of the Corporation when:—

(i) Such schemes form an integral part of and are directly connected with the process carried on in the existing unit;

(ii) Such schemes of additions do not envisage appreciable increase in the employment and undue increase in traffic loads;

(iii) Such additions is for preventing undue loss or for improving the working efficiency or the conditions of the existing unit or for balancing the existing production units for the industry;

(iv) Open spaces of 20 ft. in the City and 30 ft. in the Suburbs and Extended Suburbs are maintained from the Boundaries of the Plot.

(v) Open spaces of 30 ft. in the City and 40 ft. in the Suburbs and Extended Suburbs between two buildings are maintained.

(vi) Satisfactory means of access as required under these rules for industrial zones is provided and maintained.

(vii) Parking and loading unloading spaces are provided according to these rules.

Before permitting any such additions, the Commissioner shall first satisfy himself that the degree of nuisance from the existing unit will in no way be increased by such additions.

43A. *Non conforming users (other than industries).*—Where a non-conforming user, existing prior to the 18th September, 1958, is allowed to be continued in the Development plan, any additions to such non-conforming user (other than those provided in rule 43) not exceeding the permissible floor space index for the zone or the normal floor space index for the non-conforming user, whichever is less, may be permitted subject to the following terms and conditions, namely:—

(1) The whole building is owned and occupied by one establishment only.

(2) The proposed additions are for preventing undue loss or for improving working efficiency or conditions of existing user.

(3) The additions and alterations are meant for the existing user and not proposed to be let out.

(4) Open spaces and parking spaces required under the Development Control Rules shall be provided.

(5) The change in ownership of the establishment shall be permissible provided there is no change of user.

"43—B Prohibition of factories in residential Building in con-furming zones etc :—Not with standing anything contained in these rules, no permission shall be granted for erecting any factory, workshop or work place (for the establishment of which previous permission is required under Section 390 of the Bombay Municipal Corporation Act) wholly or partly on lands used for residential purposes even if such use is in conformity with these rules and the aforesaid Act;

Provided that the following use of residential building which are in conformity with the residential user for the following purposes may be permitted, namely—

(1) Shoe and hat repairs shops, tailors' shops, buttonhole making shops, shops for gold-smithy, diamond cutting, watch and clock repairs, bicycle and motor cycle repairs, musical instrument repairs, picture framing, radio and household appliances repairs, umbrella repair and upholsters shops, with individual motors not exceeding 1 H. (3) Coffee grinding upto 1.5 H. P. motor;

(4) Printing, presses with individual motor not exceeding 3.00 H. P. and total H. P. not exceeding 5 and not employing more than 6 persons therein;

(5) Equipment using power only for heating, refrigeration or air conditioning purposes;

(6) Shops of commercial establishment wherein power is required for ancillary use with individual motors not exceeding 1 H. P. and total H. P. not exceeding 3, subject to the following conditions, namely :—

(i) that the power shall not be used for any other purpose which will involve any manufacturing process or activity;

(ii) that the power shall not be subject under any circumstances, and

(iii) that the power shall be discontinued, if any complaints of bonafide nuisance are received.

With the previous approval of Government, the Commissioner may from time to time add to, alter or amend the provision of the proviso to this rule."

44. The Rules regarding open spaces around building Heights and floor space index shall not apply strictly to the operational buildings of the Bombay port Trust and the Railway Authorities in their respective areas, though all the regulations would apply in respect of buildings used for purely residential purposes in such area.

45. Air Port Zone—(a) The height of building or other fixtures in the Air Port Zone shall not exceed the limits prescribed by the Air Port Authorities from time to time.

(b) The smoke from industrial chimneys in the Air Port Zone shall be of such character as prescribed by the Air Port Authorities from time to time.

46. Preservation of view from Phirozeshah Mehta Garden—To preserve the western view from Phirozeshah Mehta Garden on Malabar Hill, two funnels of vision, inner and outer have been marked on the development Plan.

Notwithstanding anything contained in these rules no development work will be permitted in the inner funnel of vision and buildings within the outer funnel of vision shall not be erected or raised above Reduced Level 247.45' with reference to Town Hall Datum.

47. Setback from water courses.—No development whatsoever whether by filling or otherwise shall be carried out within 50 ft. and 25 ft. on either side of the bank of a major and a minor water course respectively. Provided that where a water course passes through a low-lying land without any well defined banks the owner of the property may be permitted by the Municipal Commissioner to restrict, or divert the water course to an alignment and cross section as determined by the Commissioner.

48. Discretionary powers.—(a) In conformity with the intent and spirit of these rules the Commissioner may, with the approval of the Corporation :—

GOVERNMENT OF MAHARASHTRA

No. TFS. 3679/2277-UI)-5,
Urban Development and
Public Health Department,
Mantralaya, Bombay—32.
9th October, 1979.

To,

The Municipal Commissioner,
Municipal Corporation of Greater Bombay,
Bombay.

Subject: Development Control Rules for Greater Bombay—Amendment to Development Control Rule 7 (iii), "GROUP MEDICAL CENTRES."

Sir :

I am directed to state that under Development Control Rule 7(iii) Medical and Dental practitioners, clinics and dispensaries, and Group Medical Centres are allowed in Residential Zone. The Government has observed that the use of "Group Medical Centres" permitted in Residential Zones, are being misused and used for other purposes after obtaining permission for "Group Medical Centres". In view of this, the Government has taken a decision that permissions for Group Medical Centres in Residential Zones, buildings or premises, hitherto permitted under the abovementioned Development Control Rule, should not hereafter be granted.

I am, therefore, directed to convey the directive of Government to the Municipal Corporation of Greater Bombay under the provisions of Section 154 (1) of the Maharashtra Regional & Town Planning Act, 1966, not to permit Group Medical Centres in Residential Zones, buildings and premises and to undertake an amendment to the Development Control Rules of Greater Bombay as follows, namely :—

"In the Development Control Rules of Greater Bombay, in rule 7 (iii) the words etc." and Group Medical Centres" should be deleted."

The Greater Bombay Municipal Corporation should give effect to the above directive immediately. The Corporation should also take necessary action under section 37 of the Maharashtra Regional and Town Planning Act, 1966, for modifying the Development Control Rules accordingly and to submit the necessary modification for the approval of Government.

Yours faithfully,

Sd/-
(A. H. BENADIKAR.)
Under Secretary to the Government,

 Dated : 6th July, 1979.

To
 The Municipal Commissioner,
 Municipal Corporation of Greater Bombay,
 Bombay.

Subject : Development Control Rules for Greater Bombay Amendment to Rule 7 (vii) (b) - Art Galleries in Residential Areas—

Sir :

I am directed to state that as per Development Control Rule 7(vii) (b), Art Galleries are permitted in residential zones, buildings or premises with the special written permission of the Municipal Commissioner. Government has observed that such permissions are being misused, as, after obtained permissions for art galleries, they are being used for commercial purposes, shopping, etc. In view of this, Government has decided, that permissions for art galleries in residential zones, buildings or premises, which are available under Development Control Rule 7(vii) (b), with the special written permission of the Municipal Commissioner, should not hereafter be granted.

2. In the circumstances, I am directed to convey a directive of Government to the Greater Bombay Municipal Corporation under the provisions of Section 154(1) of Maharashtra Regional and Town Planning Act, 1966, not to permit Art Galleries in residential zone, buildings and premises and to undertake an amendment to the Development Control Rules for Greater Bombay as follows—

"In the Development Control Rules of Greater Bombay, Rule 7 (vii) (b) should be deleted."

3. The Greater Bombay Municipal Corporation should give effect to the above directive immediately. The Corporation should also take necessary action under section 37 of the Maharashtra Regional and Town Planning Act, 1966, for modifying the Development Control Rules accordingly and to submit the necessary modification for the approval of Government.

Yours faithfully,

APPENDIX—XI

CIRCULAR

No. CE/40730/I of 23-3-1973

Subject : Desirability of exempting stair-cases, lift wells from ground floor onwards from computation of floor space index.

The Municipal Corporation of Greater Bombay under their Resolution No. 2035 dated 11th January 1973 have accorded sanction to exempt all stair-cases and lift wells from ground floor onwards from the computation of floor space index calculations in respect of all buildings in Greater Bombay.

Thus the Municipal Corporation under their above resolution have accorded sanction to amend the final development Control Rules 51(vi) (b) as under:—

" 51 (vi) (b) Electric cabin or sub-station, watchmen's booth, pump-house, garbage shafts, space required for location of fire hydrants, electric fittings and water tanks and such other requirements required for the fitting purposes."

(d) - Staircase rooms and/or lift rooms, architectural features, chimneys, elevated tanks of dimensions as permissible under the rules and niches for storage below the window sills.

For the purpose of computation of the areas of stair case walls, lift rooms and other users mentioned above, the following method of calculations will be adopted.

(i) Internal dimension of the lift wells, stair case rooms etc. will be taken in all cases.

(ii) For stair case landings which are wider than the width of the existing flight of steps the strip of landing equivalent to the width of the flight of steps will be taken into calculation for the purpose of this exemption.

(iii) For the purpose of ascertaining the F. S. I. of the plot, the existing F. S. I. of the plot as on 11-1-73 (date of Corporation's sanction to the proposal) minus the F. S. I. of stair-cases and lift rooms, as per (i) and (ii) above will be calculated and this F. S. I. shall have to be within the permissible F. S. I. of the zone in which the building is situated.

The exemption from F. S. I. as per this concession will be applicable to the following:—

(1) In all new buildings and buildings under construction as on 11-1-1973 and where B. C. C. is not accepted, or occupation certificate is not granted, the advantage of the concession in F. S. I. will be granted without giving any concession in any of the provisions under the D. C. Rules.

(2) In respect of all existing buildings, advantage of the concession will be allowed to be taken provided the F. S. I. as per (iii) above is within the permissible limit, but without giving any concession in respect of other provisions under the D. C. Rules, except regarding set back on upper floors, parking requirements for the additional area, and open spaces as per D. C. Rule No. 48(b).

(3) In no case where the existing building has already exceeded the permissible F. S. I. as per (iii) above, this concession will be allowed to be taken advantage of.

The staff concerned are directed to note the changes in D. C. Rule (51) (vi) and to consider building proposals for grant of additional F. S. I. strictly in accordance with the above policy. However all such proposals must be sanctioned by M. C. whom all cases should be put up.

NOTE :

The state Government in Urban Development Public Health Department vide their letter under No. TPB/4373/38736-WI of 22nd October 1973 have issued directive under section 154 of the Maharashtra Regional and Town Planning Act 1966 as under.

" In exercise of the powers vested in the State Government by section 154 of the Maharashtra Regional and Town planning Act, 1966, Government directs that the concession of excluding staircases and lift wells from the computation of floor space index should be allowed in respect of residential buildings in the Suburbs and Extended Suburb of Greater Bombay. This concession should not be granted for buildings in the City proper i.e. Wards A to G/North and G/South in view of traffic congestion and over crowding.

This directive have already become operative since then.

§ APPENDIX XII

No. TPB 4379/641/UD,
Urban Development and
Public Health Department,
Mantralaya, Bombay 400 032.

Dated 13th March, 1981.

To,
The Municipal Commissioner,
Municipal Corporation of Greater Bombay,
Bombay.

*Subject ; Development Control Rules for Greater Bombay Amendment to rule 37 (a) (i) of the—

Sir;

With reference to your letter No. CE/2016/DPC, dated 20th June 1979, No. CE/379/DPC, dated 8th March 1980 and No. MGR/1860, dated 10th October 1980, on the subject mentioned above, I am directed to state that the State Government agrees that rule 37 (a) (i) of the Development Control Rules for Greater Bombay, should be amended further, particularly in view of the hardship likely to be caused to persons of economically weaker and middle income sections of the Society, if balconies are allowed only for half the length of the room from which such balconies project as at present *vide* D. C. Rule 37 (a) (i) as amended by Government Notification, U.D&I-P No. DCR.1075/541-U.D. 5, dated 13th February, 1978.

2. Accordingly, the following directive of the Government under section 154 of the Maharashtra Regional and Town Planning Act, 1966 is hereby communicated to the Municipal Corporation of Greater Bombay, namely—

At the end of clause (a) of the said rule 37 (a) (i), the following shall be added:

"except in the case of such a residential flat with a plinth area of 60 square metres or less wherein the length of the balcony may be permitted, subject to the restriction on the floor space index prescribed in sub-clause (i) of this clause, for that particular flat for the full length of the room from which such balcony projects."

3. Effect to the above directive should be given immediately. I am to request that the Municipal Corporation of Greater Bombay should take action to amend the Development Control Rules for Greater Bombay accordingly as per section 37 of the Maharashtra Regional and Town Planning Act, 1966, and forward the final proposal to Government for approval in due course.

Yours faithfully,
