

Birth India Inaugural Seminar

30th Nov, 1st Dec 07

Rotary Club Juhu Tara Road Santa Cruz-W, Mumbai, India

Birth India supports women to reorient to their natural process of birthing and mothering.

WE aim to

- Improve maternity services.
- Provide information, education and training.
- Promote faith in the healing power of nature.

Birth is a natural process, not a medical procedure.

Birth India Inaugural Seminar 2007 presents various qualified speakers from around the world who will present evidence based birth alternatives – of yoga, dynamic child-birth education, midwife and doula based support.

During the course of the day, we will acknowledge that Birth is intimate, deeply personal and spiritual. The birthing woman is a force to be protected and loved. More importantly a positive, loving, respectful and dignified birth experience sets us up to mother well and can thus have the effect to change humanity.

GOALS OF THE SEMINAR

- Networking
- Information Sharing
- Action Plan for Change
