

# Indian Patent Agent

Thank you for downloading this document. This is part of the series “Unusual careers”. Lesser known careers are being researched and compiled by Mrs. Shobha Mathur. They are graciously being hosted on Karmayog.org and can be accessed at <http://karmayog.org/careercounselling/> This document provides valid links to various courses. All the links are working and secure as on June 2011. For any suggestion, amendment, criticism or praise, please contact me at [shobham@yahoo.com](mailto:shobham@yahoo.com)

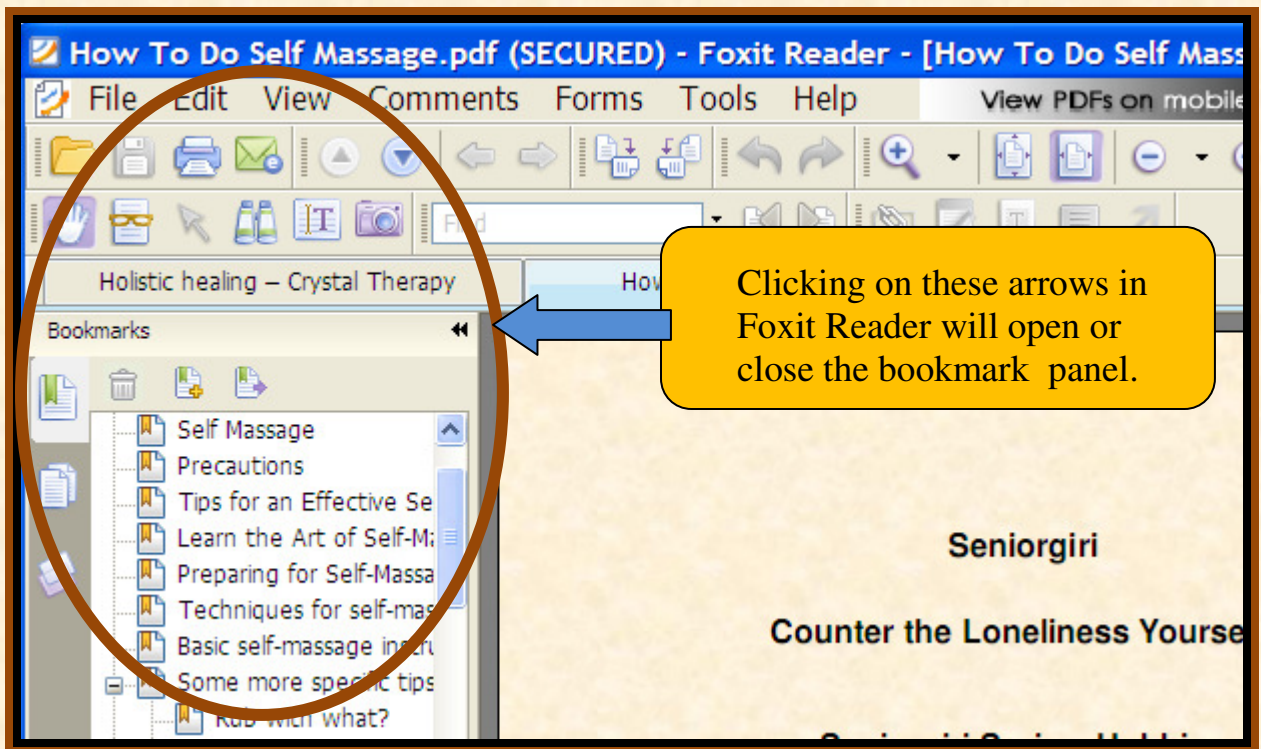

Unusual  
Careers

## Navigate the Document Easily

For Adobe Acrobat Reader, please click the Book mark icon on the Tool Bar.

This will open a Bookmark panel to the left of the document. It has a list of all headings. Here you can click on any heading to go there directly.

For other PDF readers, if there is no such icon, please look for Book Mark panel under Menu bar headings. It might be under View or Windows.

**General Information**

I have checked all links and they are Secure, Correct and working as on June 2011.

Some sites give all the information at one place and some ask you to write to them, I have given e mail addresses of all.

Almost all courses require advance planning. Many are advertised in papers, and a deadline given for applying, examinations and admissions. You should keep in touch with the institute and follow dates.

**Patent Agents****Introduction**

This can be a lucrative career after higher studies in any science subject, if you can grasp a concept and write about it. There is a need of many registered Agents in India of which there are only 1626 on 1<sup>st</sup> April 2010 according to the list published by the Office of the Controller General of Patents, Designs & Trademarks.

You have to pass the India Patent Agent Examination to become a Registered Patent Agent in India.

This is a life long professional qualification. You have to pay maintenance fees to keep it valid for up to 10 years at one time. This permits you to draft all necessary documents for approval before the **Indian Patent Office**.

Trademarks and copyright registrations also partially come under this.

**What is a patent**

A patent is a set of absolute rights granted by a National Government to an inventor for a limited period of time for an invention. It can be a new item or gadget, or even a process. Only an idea cannot be patented if there is no concrete process to realize it.

Research and innovations need to be protected for some time so their owners can earn some profit on their labors.

A patent gives legal rights to the holder to sell or lease the product or to prosecute anyone using it without his permission during the protection term.

All the actual processes have to be documented exactly detailing all the steps and requirements before the patent is granted. This is where a skilled agent is needed.

### **Term of patent**

Normally a patent is effective for a period of 14 years from the date of application subject to the payment of renewal fees.

But when it is related to food, medicine or drug, it is 5 years from the date of selling of patent or 7 years from the date of patent whichever is shorter.

### **Patent Management**

Research and innovation is happening in a big way in India today. According to Technology Information, Forecasting and Assessment Council (TIFAC) every year the electronic industry files at least 600 applications. “There are entrepreneurs who want good advice on the global patent scenario, but there isn’t much of that available” says a TIFAC official.

Indian firms, especially small and medium enterprises, desperately need more and better agents, qualified in the sciences, to make the most of their research.

Indian Patent Office receives more than 40000 (approx) applications every year.

The rules and the time limit for patents differ from country to country. Usually a patent is valid only in the granting country. But now in the global economic cooperation, countries are joining hands to make patent eligible across nations.

India is now a signatory to the Patent Cooperation Treaty. It means that once a valid patent has been filed in India the innovation is valid in 150 countries.

Indian patent agents need to liaise with patent examiners from the US, Europe and China. Thus, it is necessary for agents to be able to deal with foreign examiners, who are well versed in technology.

The main goal of patent management is obtaining and maintaining patents. This process involves various technical, legal and business skills.

### **What is a Patent Agent**

There is no limit to patents anyone can hold, but there is a set process to go about it. The Patent agents help people with the process.

An application for a patent in the prescribed form along with the prescribed fee has to be filed in appropriate office. It has to be accompanied with written detailed documents.

Writing a patent is a craft, requiring both intelligence and rigor.

A badly drafted patent destroys the value of the item. This is where an agent with suitable education counts. A biology person will not be able to draft an engineering process, and an engineer will not be able to grasp the medicinal requirements of a drug.

Meticulousness is very important. Before drafting, agents search through heaps of data on already filed patents. This confirms whether the innovation is bona fide to be patented and is not an infringement upon an already existing patent elsewhere.

An inventor needs to know whether and how his invention can be globally patentable.

All this means hard work and an agent can be busy for a month or more writing one draft.

In the patent agent's work, he or she negotiates patent agreements, as well as drafting them, and prepares documents for processing and filing. The patent agent may liaison with both product developers and their legal team to make sure filing is done properly.

A patent agent may also be involved in prosecution or may be involved in the long-term management of a client's patent portfolio.

Hence he may work with developers, the business team, other patent agents and patent attorneys. In addition to a thorough knowledge of local rules and the Manual of Patent Examination Procedure (MPEP), the he must know the rules, regulations, and documents associated with the International Patent Cooperation Treaty (PCT).

To be a registered agent one must pass the Indian Patent Examination.

## **Jobs**

Consulting Firms hire agents with a technology background, including PhDs and scientists. Some firms handle more than 150 applications from clients (including many small businesses) every year. And the number is increasing.

Their key task is patent drafting, but there are other activities as well, including prosecution, litigation and tracking management.

Patent Agents are employed in most of the corporate having R & D background to check the inventions developed, infringement activities of their routine procedures etc.

An agent can freelance too as consultant to various companies.

He can join as academician in institutes teaching Patent Law.

He can join as Patent Examiners / Patent Analysts with the IP Offices

## **Remunerations**

A patent agent could charge anything between \$1,500 and \$5,000 for an end-to-end solution relating to a patent grant in India. In the US, for example, a patent agent's service ranges from \$10,000 to \$40,000 based on technology and it may go up to \$100,000.

## **The Examination**

Controller General of Patents & Trademarks conducts the examination under the Section 126 of the Patent Act.

Patent Agent or Patent Attorney Examination: Ministry of Commerce and Industry (Govt. of India) conducts Examination through Patent Offices at New Delhi, Mumbai, Kolkata and Chennai twice in the months of May and November.

The materials for the exam are Patent Act 1970, Manual of Patent Practice and Procedure, drafting license agreement and patent drafting & Interpretation of patent specification.

The qualifying examination consists of the following papers and 300 marks-

Paper I – Patent Act and Rules - 100 Marks

Paper II- Drafting and interpretation of

Patent specification and other documents- 100 Marks

Viva voce – 100 Marks

To pass this exam one should get minimum 50% marks in each subject and in total 60% marks aggregate.

### **Eligibility**

To qualify for the examination a person must be

- (a) A citizen of India;
- (b) Over the age of 21 years
- (c) Having a degree in science , engineering or technology from any established university in the territory of India or other equivalent qualifications as the Central Government may specify in this behalf.

And

- (d) He should pay the prescribed fee.

### **Documents to submit:**

An attested copy of proof of age of at least of 21 years;

Copy of the certificate of a degree in science, engineering or technology from any university/institute.

One Character Certificate in original from a person of responsible capacity (e.g. Any Gazetted Officer from the Central Government or State Government, Heads of Educational Institutes or Autonomous bodies etc).

Two copies of self attested passport size photographs.

Two Specimen Signatures in a sheet of paper.

Cheque or draft for the fee.

1<sup>st</sup> floor, Ashram Road, Ahmedabad 380009,  
**Phone:** 079-26580567 079-26580567 , 26587193, **Fax :**079-26586763,  
**Email :** [tmrahm@ad1.vsnl.net](mailto:tmrahm@ad1.vsnl.net)

**Geographical Indications Registry**

Geographical Indications Registry,  
Intellectual Property Office Building,G.S.T. Road,  
Guindy, Chennai 600032,  
**Phone :** 044-22502091 - 93, 22502098,  
**Fax:** 044-22502090 **Email:** [gir-ipo@nic.in](mailto:gir-ipo@nic.in)

After passing the examination the person has to submit a form for registration, along with prescribed fees. The Controller satisfies himself on all counts and then his name is entered in the register of patent agents.

**Courses and Institutes**

There are several institutes offering a variety of courses to help with the examination.

I could see several more names when I researched, but they simply wanted your money, there was no valid address or email upfront. Beware of such sites. If they are not giving their complete address, and have a free email for contact they may be fraudulent.

One main Government site - Institute of Patent Attorneys (IPAI) India, had a problem. I could not open it. Anyway, I have given the address as collected from other sources.

Many of these courses are online or distance ones. Go through the method of teaching, course material and see whether there is support for getting a job, before parting with your money.

All this information is correct as on July 2010.

## **1. Intellecture**

Intellecture, a training division of Brain league is conducting online course for patent agent exam. This patent agent training program provides interactive **live online training** for viva.

### **Course objective:**

To provide training for the Patent Agent Examination conducted by the Indian Patent Office.

Registration fee: Rs. 10,000/- (Rs. Ten thousand only)

Note: – The schedule for the course shall be provided on registration

Contact Details:

INTELLECTURE

## 2. Origiin

<http://www.origiin.com/patentagenttraining.htm>

Origiin IP Solutions LLP announces flexible options for training on Patent Agent Examination training :

### **1. PAE-Complete™(Classroom Training)**

This is a classroom training program conducted by experienced Patent Attorneys and Patent Agents.

**Duration:** 35 hrs

**Fee:** 20,000 INR

### **2. PAE-Distance™ (Distance Education)**

This is a Distance Education Program wherein printed study material will be delivered at regular intervals to the candidates along with assignments. Candidates will solve the assignments and send it back for verification. This will be available from 1st July 2010.

**Fee:** 14000 INR

Participants opting for Distance Education can attend all class-room sessions with additional fee of 6000 INR

### **3.PAE-Online™(Online Tutorials)**

Online tutorials are offered through the origiin web site wherein a user can logon to the Web site and access all the study material online. Online tutorials are divided into three parts out of which candidates can choose any module (s) depending upon the requirement.

#### **Module 1: Patent Act and Rules**

**Fee:** 8000 INR

#### **Module 2:**

PCT, Patent Drafting, License Agreements, Tips for viva

**Fee:** 4000 INR

**Module 3: Question bank**

**Fee:** 4000 INR

**4. PAE-Solutions™**

All the previous year Question Papers (Paper I and II from year 2004-2010) will be solved and discussed in this module providing a practical exposure to the examination pattern. Solutions will be provided in the form of Paper Back copies to each candidate.

Candidates opting for PAE-Solutions™ can attend last 2 days of Classroom training on 11th and 12th December, 2010 with additional fee of 1000 INR only.

**Cost:** 3,000 INR only

Interested candidates can contact us at email for details on registration.

**Address:**

Origiin IP Solutions  
#51, MCHS, 15th Cross  
HSR Layout, Sector 4

<http://www.shramworx.com>.

## 5. TMP

TMP India Patent Agent Exam Training course is not a course where you are going to learn something and get a certificate of participation. This is a strict training and the objective is to enable you to master the **India Patent Law** to get through the exam easily. The Course runs for 75 days and out of that you have to write tests and revision exams for 45 days

The tutorial will consist of Patent Act, Patent Rules, Patent Forms, Manual of Patent Practice and Procedure, Past Question Papers and their Answers, Important Sections and Rules from which questions are bound to be asked. This text material is written in simple English as far as possible and without using legal language as far as possible.

The sections, Rules and Forms will consist of Text material, Audio of the text and Video of the text. You view the video first, listen to the audio and then study the text material and answer the few questions asked from the particular section. We have devised the system in such a way that only after you correctly complete one section you can go to the next section. And only when you complete the Act, you can go to the Rules.

You will also receive an e-book with the above subjects in the text format so that you can have a back up in your computer if there is a problem in Internet connection or if our server is down. You can print out the material and have them spiral bound in three or four files and available handy for you.

You can download the audios of the course material and I encourage you to buy an MP3 player and listen to the audio as much as possible.

The coaching classes run for about 75 days or one day before the examination whichever is later.

You will have to write, two tests per week in the starting phase , 3 tests per week in the second month ,4 tests per week in the third phase and 5 tests per week from the 4th phase onwards. Each phase will be for 2 weeks.

From the 45th day you will start learning patent drafting and patent documentation like Assignment, Licensing, writing opinions etc and you will start writing them

What do I mean by write the tests? Why do I insist on your writing rather than emailing me?

Most of us have forgotten how to write on a paper. In the Patent Agent examination you have to think very quickly and write very fast. **And you have to write for 5 hours in one day.** Many are not able to write the examination in time and fail. We are training you to get through

You can join the course now. You need to complete all in about 75 days and then keep writing the revision Exams

Remember you are studying for an examination. When you clear it you get a lifelong professional qualification. As you age, you will have more clients, more work and more income. There is no retirement unless you do not want to take work. A lifelong income is assured.

### **Application Form:**

Application form can be [downloaded here](#). Please print out the form, complete it and send through courier.

### **Course Fee: Rs.25,000**

Fee is also payable in two installments of Rs.12,500, in two consecutive months

**How to pay:**

Payment to be made through DD / Local Cheque payable to 'Janaki Natarajan' at 'Chennai'.

**Address**

**6. Brainleague****Internship Program****Overview**

Our Internship Program is aimed at teaching intellectual property skills to students and professionals having legal or technical background. The tenure of internship is generally four (4) to six (6) weeks.

**Eligibility**

A person seeking an Internship Program at Brain League must

Be a student of Law, Science or Technology; or a Legal or Patent professional; and have completed a taught course in intellectual Property (IP). OR

Must be a management student; or

Must be interested in marketing or sales.

Note: Patent Internships Program will be given to only persons having science or technology background.

**How to apply?**

You may apply for the Internship Program by filling the online application form. Please note that your Internship Program application will not be considered if all details in the application form are not provided. On receiving your application form, our internship co-ordinator will contact you if you are selected for the Internship Program.

**Current Research Projects**

Comparative claim drafting;  
Patent Statistics and Analysis;  
International and Comparative Patent Law;  
International and Comparative Trademark Law;  
Settlements and Strategy;  
Open Source and Patent Risks; and  
Inventor Incentive program.  
Competitive Intelligence

**Internship Program facilities and process**

Once a person is selected for an Internship Program with Brain League, a formal communication will be sent by the Internship Program coordinator. The communication will specify the start and end dates and details of the program.

Brain League will provide a desk and a computer for the intern. Interns are not allowed to bring their own laptops or any storage devices.

The Internship Program will involve the following activities:

Research in the designated area of IP;

Training on the chosen skill; and

Presentation on a specified topic.

The intern must submit a progress report to the Internship incharge at the end of every week. On completion of the Internship Program, the intern will submit a completion report and a certificate will be given to the intern.

**Recruitment of interns**

Interns will be given preferential treatment during recruitment process. Most interns who have joined Brain league and performed well are today working with the Company.

**Contact Information**

Please contact the Internship Program co-coordinator for any queries.

Internship Co-coordinator: Ms. Vintee Mishra

**11. Indian Patent Agent Examination Book**

Description: This book aims to provide students as well as professionals an overview of the patents system and relevant study material for qualifying in the Patent Agent Examination. It explains in detail the Indian Patent Act and Rules, licensing agreements and how to draft them,

petitions, fees, timelines and forms. Besides, the book contains model answers to previous years' question papers and tips on the viva voce, which is the final frontier. Students should be well versed with the Indian Patent Act and Rules to qualify in the Patent Agent Examination; therefore, all Sections and Rules have been explained simply and in a consolidated table, and the model answers to the previous years' questions given in the book have been drafted in consultation with patent law experts. The book will be an immensely valuable resource to both professional Patent Agents and those who aspire to make a career in the complex but fascinating world of patents.
